

You And Your Sweet Love

Conway Twitty

I wish you only knew all the days, I've made it through
Because of you and your sweet love
I wish that I could count the times, peace and comfort filled m
y mind
Because of you and your sweet love

You're what keeps me going
The sun that lights my sky
The rose that blooms in winter
The rain that cools July

Never try to tell me that it wasn't God above
That sent me you and your sweet love

Almost every night it seems, you come walking through my dreams
Precious you and your sweet love
And tonight though we're apart, there's a fullness in my heart
Thanks to you and your sweet love

You're the rock I cling to
The star I wish upon
The water in my desert
The anchor in my storm

Never try to tell me that it wasn't God above
That sent me you and your sweet love
Precious you and your sweet love
