

We've Only Just Begun

Cool Hand Luke

Have i ever wanted this much before
Still a slave at every move i make
Your beauty rest within the skies
My eyes have fallen from Your ways
But they will see
Take it as it is with no exceptions

Found a way of letting You in
Found a way of vanishing
Found a way of letting You become me

Oh to know what it means to be free
All i know and all i see is You run to Me,
Trust in Me,
Run to Me
I love you

The air i breathe
The sand beneath my feet
The sun that's in my eyes

Everything is You

The song i sing
The blood within my veins
The blue eternal skies

Everything is You
My sweet Jesus
