

May I Have This Dance

Copeland

May I have this dance saw you sitting lonely I hope you would say yes may I have this dance look into my eyes I as I offer you my hand my hand dance forever stretch out my hand to dance with your inviting warmth providing hand and I stand out facing me embracing me into my companion for a dance, dance forever dance forever when we dance I'll whisper nothing in your ear speak in words you'd never hear this is my love it will not stop or start and you know that in your heart you know that in your heart you lift your hands to me you lift your hands to me and hold me so close and you dance forever and you dance forever and you dance forever
