

Circles

Corbin Bleu

I can't believe it, feels like I'm the last to know
I got a secret, I can't let out, I can't let go

Too many people, try to tell me how I feel
Too many pieces that don't add up that don't seem real

And so the story goes,
I've been up and down this road before

Running in circles in my mind Thinking about you all the time
I try to push it away, but it comes back around, it comes back
around

Circles in my head, all the things I should've said,
Wish I could you now but I don't know how
Cuz I'm stuck inside, circles in my mind

Cuz I'm thinking about you, thinking about you,
Circles in my mind

Circles in my head, all the things I should've said,
Wish I could tell you now but I don't know how
Cuz I'm stuck inside, circles in my mind
