

# I Get Lonely

Corbin Bleu

Sound of the rain on the roof of my car  
It haunts me in my sleep  
Passengers' side wearing that red scarf  
That I got you for our anniversary  
That's where you sat when you said to me  
You think that space is what you need  
Time to decide where you wanna be  
So now everytime that it rains

I get lonely  
I begin to miss your touch  
I get lonely  
Start to reminice on us  
I get lonely  
As if rain isn't sad enough  
Everytime it starts to rain on me  
I get lonely

You had a smile like summertime  
And hair like a gentle breeze

A sudden change in the weather  
You are no longer with me  
You wanted space i gave the universe  
You wanted time I gave eternity  
Tears of the sky remind me of the hugs  
So now everytime that it rains

I get lonely  
I begin to miss your touch  
I get lonely  
Start to reminice on us  
I get lonely  
As if rain isn't sad enough  
Everytime it starts to rain on me  
I get lonely

Wicked memories (wicked memories)  
Playing with my mind (playing with my mind)  
Leaves me mentally solitarily confined  
You took a part of me  
And I am not the same  
Constantly reminded by the rain

I get lonely  
I begin to miss your touch  
I get lonely  
Start to reminice on us  
I get lonely  
As if rain isn't sad enough  
Everytime it starts to rain on me  
I get lonely

I get lonely  
I get so lonely  
Everytime it starts to rain on me  
I get lonely
