

# Can I Sing You To Sleep?

Corey Crowder

Face to face  
With our eyes closed  
Well I've been thinking that we should leave this town  
I've been thinking we should leave this town.

And we'll tell our friends  
That we're moving out west  
No one has to know  
We're running from our problems.  
(2x)

I'll pack our things  
If you say the goodbyes  
Well I've been thinking we should leave this town  
I've been thinking we should leave this town.

And we'll tell our friends  
That we're moving out west  
No one has to know  
We're running from our problems.

And we'll tell our friends  
That we're moving out west  
No one has to know...

So just lay down  
And take a load off  
Can I sing you to sleep?  
(2x)
