

## Here's Looking At You Kid

Corey Crowder

I'll keep on drivin so we can talk a while  
I know I could drive all night just to stay here with you  
At the end the night well embrace and stare at the star filled  
night  
Would it be alright if we didn't say goodbye this time?

I'll wait and wonder when our next time will be  
I'll see you next week, hopefully  
I wish it were sooner  
At the end of our trip well embrace and stare at the star fille  
d night  
Would it be alright if we didn't say goodbye this time?

Every time were away I feel a distance I can't take  
Watching you drive away, oh it kills me

I'll be alright  
Have no worries  
I'm just a bit over anxious  
And maybe a little impatient  
At the end of the night next time after we look at the star fil  
led night  
Can we escape to a far away land where we will forever remain..  
.  
Living as one and walking hand in hand
