

# In Your Soul

Corey Hart

Ever since I was a little kid  
I have always thought  
I could run faster than the wind  
Stare up to the sky with open spaces  
I could live and die  
Man you can't find that in no book  
Never find that in no book  
Someone will drag you down  
And try to knock you under  
Hey mama said with her words of wonder  
Don't matter cause  
Cause it's in your soul

I have always felt  
That I had to prove it to myself  
No salvation from the firin' line  
A million dreams won't set you free  
God I know there's something trapped in me  
There's no refuge from the ride  
No shelter ever saved a man his pride  
Give you pain and never feed your hunger  
I won't close my eyes  
When it rains and thunders  
Don't matter cause  
Cause it's in your soul

And when the night is overcome  
And I've been racin' down a road  
That's got no trace, no face  
If I could live by the words I've sung  
And carry all the choices I've made  
I swear, I swear I'll be there

Hey mister don't shadow box with me  
Cause I don't wanna someday be  
An old man cursin' what I might have been  
Now I realize what I see  
That the wind was never chasin' me  
And I don't feel so alone  
I can close my eyes I'm goin' home

Behind the clouds the sun is shinin'  
Some rain will fall no use cryin'  
O no, o no not me  
Got a picture in my head  
That won't let go of  
Young man running in search of  
Count your blessings  
Cause it's in your soul  
O it's in your soul  
In your soul, o no  
Ever since I was a little kid  
I have always thought  
Young man running...
