I know what I said Was heat of the moment But theres a little truth in between the words we've spoken Its a little late now to fix the heart thats broken Please don't ask me where I'm going Cause I don't know No I don't know anymore It used to feel like heaven Used to feel like may I used to hear those violins playing heart strings like a symph ony Now they've gone away Nobody wants to face the truth But you wont believe what love can do Till it happens to you Till it happens to you Went to the old flat Guess I was trying to turn the clock back How come that nothing feels the same now when I'm with you We used to stay up all night in the kitchen When our love was new Oooh love I'm a fool to believe in you Cause I don't know No I don't know Anymore It used to feel like heaven It used to feel like may I used to hear those violins playing heart strings like a symph Now they've gone away Nobody wants to know the truth Until their hearts broken Don't you dare tell them What you think to do Till they get over You can only learn these things From experience When you get older I just wish that someone would have told me Till it happens to you Till it happens to you

Till it happens to you
