

Baby Baby

Corona

Baby, baby
Why can't we just stay together ?
Yeah, yeah yeah
Baby, baby
Why can't we just stay forever ?
Yeah, yeah yeah

I wanna roll inside your soul
To know the things that you need and feel
Every time that you're by my side
I can't get serious
Because you got me

Cold chill down my spine
No, no more tears, show me a smile
Cold chill down my spine
No, no more tears, show me a smile

Deep inside, I know you need it
Just let it out, and get it on
You gotta feel it
Every time that you're by my side,
Just think it over,
I'll make you glad
