In The Name Of Love

Corona

I feel lost and found, everytime you come around
Everytime somebody calls your name
I love your voice and whenever there's that sound
I go crazy yes I go insane

A friend of mine, told me that you're fooling me
And now I'm cryin' in the rain
I say they're right, but I'll go ahead to see
If my love survives through all this pain

In the name of love
Living in the night
You can see the light
In the name of love
Living in the night
You can seethe light

I feel lost and found, coz' I love you more and more
There's nothing else for me to do
I swear it's true, it will be for life I'm sure
I could even steal the moon for you

You're inside of me you're the blood inside my veins
You are down, there, pumping my heart
You're leading me, you're the master of my brain
Baby please don't tear me apart
