

When I Give My Love

Corona

Move your body to be alone
Shake your body to sing a song
DJ's on the microphone
This is the beat c'mon c'mon

Yoo ooh

When I wake up in the night
I look in to your eyes
I got a feeling

When I know just what you feel
You're really what I need
I got a feeling

When I give my love
When I give my love
When I give my love
In the light

When I give my love
When I give my love
When I give my love
In the night

When I make a good deed
When I live in sadness
I got a feeling

When I want to turn back
When I try to change myself
I got a feeling

Move your body to be alone
Shake your body to sing a song
DJ's on the microphone
This is the beat c'mon c'mon

When I give my love
When I give my love
When I give my love
In the light

When I give my love
When I give my love
When I give my love
In the night
