

# My Little Nephew

Corrinne May

It's funny how one thing happens  
That changes your whole point of view  
Everything that seems to matter  
Is cast aside for a better dream

You're growing faster with every minute  
Second photograph  
I wish I could spend more time with you  
My little nephew

Every day's a new discovery  
I'm a child again looking through your eyes  
Every step you're teaching me  
Out of full cried "get up and smile"

You're growing faster with every minute  
Second photograph  
I wish I could spend more time with you  
My little nephew

But you're far away and I'm over here  
Memories are lost in the span of your soul  
When I go will you miss me?  
When I go will you remember me?

You're growing faster with every minute  
Second photograph  
I wish I could spend more time with you...

See you learn to tie you shoes  
Say that skies are blue  
And that your best friend is Winnie the Pooh

My little nephew
