

# Save Me

Corrinne May

I drift, I burn, I fly  
When you sing lullabies  
I'm helpless, I'm yearning  
I'm like the putty in your hands

I laugh, I dream, I cry  
When you take me on a roller coaster ride  
You see me through and through  
You see just who i am  
Just take my hand and

Save me from this place  
Heaven knows I'm falling  
For you, my sweet embrace  
Heaven Knows  
Heaven knows I've been waiting for you

I had a dream that i  
was falling from the sky  
At 90 miles an hour  
I was bound to crash and die  
But out of nowhere you came and rescued me  
There must be some grace in the touch of your face  
I'm so happy that I've found you  
I'm no longer afraid

Oh ' cause you  
Save me from this place  
Heaven knows i'm falling  
For you my sweet embrace  
Heaven knows  
Heaven knows I've been waiting

Before i met you  
Life was slow-mo  
So slow-mo  
I thought i had it figured out  
But you came and turned my whole world upside down

Save me from this place  
Heaven knows I'm falling  
For you, my sweet embrace  
Heaven knows  
Heaven knows you've come to

Save me from this place  
Heaven knows I'm falling  
For you, my sweet embrace  
Heaven Knows  
Heaven knows I've been waiting for you  
Waiting for you
