

Something About You

Corrinne May

Don't what you do to me but
Everytime I'm with you its a natural high
Its like re-discovering Eden
With chocolate-coated rainbows and cotton candy skies
And everytime you look my way
I wish I had the guts to say

There's something in your eyes
Something in your smile
Something in the way you move me
You make me want to sing
Make me want to dance
Make me want to cry
I'm falling in love with you.

I think I'll hire Cupid
He'll make you see I'm more than your friend
You'll be tossing and turning
Counting the hours til you see me again
And when we meet you'll
Kiss my hand and say the words I've longed to hear

There's something in your eyes
Something in your smile
Something in the way you move me
You make me want to sing
Make me want to dance
I'm falling in love with you
You make me want to sing
Make me want to dance
Make me want to cry
I'm falling in love with you.
