

All The Voices

Corroded

I don't want to let them know
How I turned out the weakest one
Hey you, why can't you see what I see
(It's dark, it's cold, pitch black)
Hey you, why can't you hear what I hear
(No words, still lies, so strange)
Hey you, why can't you feel what I feel
(Just pain, so real, so grim)
Hey you, you must've been talking to me
I just need to see, I just need to hear

All the voices in my head
They're convincing me I'm right
All the voices in my head
I can never let them down
They will never leave me, and I will never leave them
All the voices in my head

So you just can't seem to understand
(What I see, what I hear, what I feel)
And you can never grasp what I am
(I am you, I am me, everyone)
So you just need to move along
(You're gone, move on, bye bye)
I know you must have been talking to me
I just need you to see, I just need you to hear

All the voices in my head
They're convincing me I'm right
All the voices in my head
I can never let them down
They will never leave me, and I will never leave them
All the voices in my head

All the voices in my head
They're convincing me I'm right

Got to hear all the voices in my head
They're convincing me I'm right
Got to talk to all the voices in my head
I can never let them down
They will never leave me, and I will never leave them
All the voices in my head
