

# Inside You

Corroded

It all comes tumbling down  
No vital parts remain  
I think I am insane  
Crack the code of my own skin  
All the signs are there  
And I see them everywhere

I just want you to reveal  
I just want you to reveal  
I just want you to reveal

What's inside you? (Wanna know)  
What's inside you? (Gotta know)  
What's inside you?  
I want to know what you hear, what you smell, what you taste like

What's inside you? (Wanna know)  
What's inside you? (Gotta know)  
What's inside you?  
I want to know what you hear, what you smell, what you taste like

What's inside you? (Wanna know)  
What's inside you? (Gotta know)  
What's inside you?  
I want to know what you hear, what you smell, what you taste like

Mirror shows my evil twin  
In darkness all comes clear  
And now I see your fear  
Self-indulgence is a sin  
You are a tool to me  
What would you last words be?

I just want you to reveal  
I just want you to reveal  
I just want you to reveal

What's inside you? (Wanna know)  
What's inside you? (Gotta know)  
What's inside you?  
I want to know what you hear, what you smell, what you taste like

What's inside you? (Wanna know)  
What's inside you? (Gotta know)  
What's inside you?  
I want to know what you hear, what you smell, what you taste like

I just want you to reveal

What's inside you? (Wanna know)  
What's inside you? (Gotta know)  
What's inside you?  
I want to know what you hear, what you smell, what you taste like

What's inside you? (Wanna know)  
What's inside you? (Gotta know)  
What's inside you?

I want to know what you hear, what you smell, what you taste like

What's inside you? (Wanna know)

What's inside you? (Gotta know)

What's inside you?

I want to know what you hear, what you smell, what you taste like

What's inside you? (Wanna know)

What's inside you? (Gotta know)

What's inside you?

I want to know what you hear, what you smell, what you taste like
