

# Let Them Hate As Long As They Fear

Corroded

Altruistic terror the way I choose you will abide  
Your existence is mine just mine to erase  
Narcissistic gallantry your worst nightmare has come true  
This I know for sure as I am the lord of flies

Oh I am the herald  
I am the bearer of bad news  
Oh I am the stillborn  
As you may see I am the thing that should not be

Let them hate as long as they fear  
What you get is the be all and end all

Let them hate as long as they fear  
What you get is the be all and end all

Atrocious caresses your skin feels cold to the touch  
Your disgust is my only salvation  
Malevolent philanthropy my words are poison in your ears  
As I shuffle the truth from my deck of lies

Oh I am the herald  
I am the bearer of bad news  
Oh I am the stillborn  
As you may see I am the thing that should not be

Let them hate as long as they fear  
What you get is the be all and end all

Let them hate as long as they fear  
What you get is the be all and end all

I am the thing that should not be

Let them hate as long as they fear  
What you get is the be all and end all

Let them hate as long as they fear  
What you get is the be all and end all
