

## Scarred

## Corroded

Can't stand to live in this void  
blood flows cold and skin is dead  
My mind plays tricks on me I wish it was real  
But I am numb, I thought I could feel

My thoughts is playing on repeat  
running down this one-way street  
There is no way for me to turn around  
I'm moving faster now straight into the ground

Scarred, I want to feel real pain  
I need to be defleshed  
Bruised, tear my skin straight off  
I got to be stripped down

My mind is weak and my soul is dust  
a pawnshop halo soiled by rust  
Dismal thoughts are my companionship  
I crave these lies just to keep a grip

I suffer plague of disbelief  
salvation is my world of grief  
Screaming, tearing making silent noise  
This self-content is my new drug of choice

Scarred, I want to feel real pain  
I need to be defleshed  
Bruised, tear my skin straight off  
I got to be stripped down

Scarred, I want to feel real pain  
I need to be defleshed  
Bruised, tear my skin straight off  
I got to be stripped down

Scarred, I want to feel real pain  
I need to be defleshed  
Bruised, tear my skin straight off  
I got to be stripped down
