

Bulletproof Love

The Corrs

I knew a man from a small town
Who studied the stars and became one
Of faith and devotion and wisdom
My lantern lit way that I walk on

An emblem of love
Looking from above
Telling me there's always light

You can rule the world
You can rule the world
If you let love win
Let love rule the world

I'm looking for signs in a playground
A bed of white feathers I sleep on
In every man that I see now
This armor of mine I've gotta pass on

An emblem of love
Looking from above
Telling me there's always light

We can rule the world
We can rule the world
If we let love win
Let love rule the world

And we will be bulletproof
We will be bulletproof
Yeah we will be bulletproof
We will be bulletproof

If we let love win
Let love rule the world

We will be bulletproof
We will be bulletproof
If we let love win
Let love rule the world
Yeah if we let love win
Let love rule the world
