

# Goodbye

The Corrs

I never thought one day you'd be gone,  
away forever more  
No one can say, no one could explain  
why you were taken

Oh where are you now?  
Could I get there somehow?

It's time to say goodbye  
Block out the sun and pack up the sky  
Don't let my tears start to make you cry  
Each time I try to say my goodbye  
Try to stop asking why

Tell me it's true, tell me there is something more  
Another time for love  
One day I'll know, I'll be there  
Will you be waiting?

Oh where are you now?  
Could I get there somehow?

It's time to say goodbye  
Block out the sun and pack up the sky  
Don't let my tears start to make you cry  
Each time I try to say my goodbye  
Try to stop asking why  
Try to stop asking why...yeah...

Where are you now?  
Could I get there somehow?

It's time to say goodbye  
Block out the sun and pack up the sky  
Don't let my tears start to make you cry  
Each time I try to say my goodbye  
Try to stop asking why, why  
Try to say my goodbye
