

# Live Before I Die

The Corrs

Come to me when day is done  
We can chase away the dawn  
Lift me up and pull me down  
'Til we come crashing into the ground  
Nothing here is nothing less  
A gentle sigh your dark caress  
Let me ride upon that wave  
Far far away  
To the edge of the world

Where nothing's wrong  
And nothing's right  
Don't want to know the reason why  
Just wanna live before I die  
Where nothing's real  
And nothing's sad  
Just let me be in the moment  
So I can live before I die

Kiss me with the morning light  
Chase the demons, make them fly  
Let me lie here for a while  
So I can wait until tonight  
Catch my dreams and make them real  
I need a place where I can be  
Where there's only you and me  
Far far away  
To the edge of the world

Where nothing's wrong  
And nothing's right  
Don't want to know the reason why  
Just wanna live before I die  
Where nothing's real  
And nothing's sad  
Just let me be in the moment  
So I can live before I die

Where nothing's wrong  
And nothing's right  
Don't want to know the reason why  
Just wanna live before I die  
Where nothing's real  
And nothing's sad  
Don't wanna know the reason why  
Just wanna live before I die

Where nothing's real  
And nothing's sad  
Just let me be in the moment  
So I can live before I die  
Before I die
