

# Stay

The Corrs

Prayers float as coloured letters to the Gods  
Make mine a land without compassion  
A melting pot of pain stirred slowly to the boil  
We had a radar now it's gone

This is a cruel cruel love  
I stood on the dark side of love  
This is a cruel cruel love  
I stood on the dark side alone

Let love light your way  
Forever always with me stay  
I'll live while I'm alive  
Forever always with me stay  
With me stay

I'm still reeling though I knew you'd one day go  
There's no softening this shock  
Write me a song, throw me back upon your knee  
Help me move forward now I've lost where I began

This is a cruel cruel love  
I stood on the dark side of love  
This is a cruel cruel love  
I stood on the dark side alone

Let love light your way  
Forever always with me stay  
I'll live while I'm alive  
Forever always with me stay  
With me stay

Stay...  
With me stay...  
Stay...

This is a cruel cruel love  
I stood on the dark side of love  
This is a cruel cruel love  
I stood on the dark side alone

Let love light your way  
Forever always with me stay  
I'll live while I'm alive  
Forever always with me stay  
With me stay

Let love light your way  
Forever always with me stay  
I'll live while I'm alive  
Forever always with me stay  
With me stay
