

Calm Down

Cosmic Gate

As your life falls away from view
As the time runs away
Whatever will you do
Do you want me again, my dear?
I will wait for you

As your thoughts turn to prey on you
I will keep them away, so far away
Through the dark night I'll stay with you
I will comfort you
Oh, I will

Calm down
Your nervous state
I'll sing you a lullaby

Calm down
'Cause no mistake
Should keep you up all night

Fall down
Here with me
Baby, we'll be alright
Baby, we'll be alright

Calm down
