

# No One Can Touch You Now

Cosmic Gate

Well the winter came and went  
But your heart was frozen over  
And it never thawed again  
I know he hurt you  
Cut you deep  
And you can feel it  
When you're dazing in your dreams

And all of the scars he gave  
In seasons they could fade away  
But you could live them out again  
And again

But after all that you've been through  
There is nothing left of you  
Everything within without  
Withdrew, withdrew..

No one can touch you now  
You've hidden away your heart  
No one can touch you now  
It's safer where you are

And I can't get through your doubt  
Or find a way around  
'Cause no one can touch you now  
You've hidden away your heart

Will the summer chase away the storm  
But your heart is frozen over  
So you cannot feel the warmth  
I won't hurt you, can't you see  
But you still feel him  
In your daze and in your dreams

And all of the scars he gave  
In seasons they could fade away  
But you could live them out again  
And again

But after all that you've been through  
There is nothing left of you  
Everything within without  
Withdrew

No one can touch you now  
You've hidden away your heart  
No one can touch you now  
It's safer where you are

And I can't get through your doubt  
Or find a way around  
'Cause no one can touch you now  
You've hidden away your heart

No one can touch you now  
No one can touch you..
