

Over the Rainbow

Cosmic Gate

Somewhere out there you are
So close but yet so far
My heart intertwined with yours
What remains is our choice

She loves me, she loves me not
Take a chance, give it what i got.
Who knows we could grow old together
Late walks in the park, romance after dark

I'll never give up on you
I'll never give up on you
I'll never give up on you
I'll never give up on you

(5x)

Over the rainbow
That's where I'll go to find you
'Cuz you are my gold and one thing
I know is that I need you, yeah
