

Start To Feel

Cosmic Gate

If you want everything
With a touch I'll make you whole
Cause you long for the strength
To see what you're made of
But you don't care for
The silent souls
If you're not careful
You'll fall

In the darkness
Just start to feel
In the moment
Just start to feel
In the darkness
Just start to feel
In the moment
Just start to feel
Just start to feel
Just start to feel
Just start to feel

In the darkness
Just start to feel
In the moment
Just start to feel
In the darkness
Just start to feel
In the moment
Just start to feel

Just start to feel
