Cosmic Gate

Please don't turn away when I'm talking to you
Cause I don't like leaving things unwound like this to you
Two steps forward, one step back
Moving too slow, you're way off track
Are we out of our minds?
Out of our minds, out of our minds

Try, put our egos aside
Why can't we just try?
It's all I'm asking us to do, I still love you

Try, put our egos aside
Why can't we just try?
It's all I'm asking us to do, I still love you

Try, put our egos aside
Why can't we just try?
It's all I'm asking us to do, I still love you
