

Fireflies

Count The Stars

Sometimes I could know
About things, you'll never know
Like where we descend, at the times that we end
Like where we descend
Where you gonna go with a delicate soul
That face could kill and tell me all the things
That I need to know about the ups and downs
I'm taken over
Her eyes light up like fireflies
And I love to see her light
Her eyes light up like fireflies
And I can't wait to see her
So catch me on a good day
Because I might just find a better place to play
Just to bring you back
It's not that I don't care at all
It's just that I can't watch you burn
Her eyes light up like fireflies, and I love to see her light
Her eyes light up like fireflies, and I can't wait to see her
And if you wanted more than you could fit inside your head
I'm heading out I've got some things to learn and you my
Friend to comprehend
If you wanted more than you could fit inside your head
