

## **Anchors Make Good Shoes (If You Have Issues)**

**Courage My Love**

Don't want to hear your sad songs  
Heard them all before  
Take it from me dear  
You don't need them anymore

Sympathy is all you know  
Just let it go

Let's find a way to turn this around  
You're like an anchor, bringing me down  
Sinking deeper, I can't reach you  
I've seen right through your crying game  
I say "hello," you run your mouth again  
Sinking deeper, I can't reach you

How can I make you understand?  
It's not who you are,  
But it's exactly who you'll be  
If you let it get that far

Sympathy is all you know  
Just let it go

Let's find a way to turn this around  
You're like an anchor, bringing me down  
Sinking deeper, I can't reach you  
I've seen right through your crying game  
I say "hello," you run your mouth again  
Sinking deeper, I can't reach you

You just take, take, take, take  
Why can't you give, give, give, give  
Before I'm gone?  
You just take, take, take, take  
Why can't you give, give, give, give  
Before I'm gone?

Let's find a way to turn this around  
You're like an anchor, bringing me down  
Sinking deeper, I can't reach you  
I've seen right through your crying game  
I say "hello," you run your mouth again  
Sinking deeper, I can't reach you
