

## River

## Courage My Love

I can feel you pulling down on me  
like the currents of the river  
no I can't tell you where it may lead  
I can only hope it carries me far

ooooohOooohOOoooh 000hooooooooOh

It's only hard to find  
with dreams so big, there's no use  
you were almost right  
my dreams are always bigger than you

I know your fault, that you still have faith in me  
you'll be surprise, when this river leads into the sea  
river carry me x3

I grow every thought into the sea  
just to see how far they tank  
though I know they'll all come back to me  
when this guilty tide holds them in

I can't believe i almost gave into the undertook  
every time I'd fall, I'd get back up cause now I know

I know your fault that you still have faith in me  
you'll be surprise when this river leads into the sea  
(carry me away)  
river carry me

This progress i will keep  
you won't forget me mentally

River carry me

I know your fault that you still have faith in me  
you'll be surprise when this river leads me  
I know our fault that you still have faith in me  
your be surprise when this river leads into the sea  
(carry me away)  
river carry me
