

April's Love

Court Yard Hounds

All the years I've gone through my life
Taking the fall just to make it alright
A time and place, never could erase
The day we met

You can't make me stay
I wouldn't anyway
'Cause it don't feel right
When it's said and done
You can't hold on to the light
If it don't feel right

Yeah, I'm OK, but I'm not the same
And I take it in stride
There's no way to lose, with pictures to prove
The lives we made

You didn't take a stand
You didn't hold my hand
You should have held on tight
When it's said and done
She's gonna run through the dead of night
If it don't feel right

Crimson pair, we could make 'em stare
Oh, but I slipped right down
I saw his face, all time erased
But that don't make it right

You've got a thousand lines
You're going overtime
Just to change my mind
With so much to prove
Babe you're on the move... it's a million miles
When it don't feel right
