

Gets You Down

Court Yard Hounds

When life gets you down
What you gonna do?

Are you gonna stick your head in the sand?
Are you gonna turn and run just like that?
Are you gonna take a fall or a stand today?

When hearts break you down
What you gonna do?

Are you gonna pitch a fight and cry?
Are you gonna beg the reasons why?
Are you gonna say and do what's wrong or right?

Well you could always love me
Yeah you can always love me
Yeah you could always love me

And if it don't feel right
At least you tried

When I let you down
What you gonna do?

Are you gonna slip away in the night?
Are you gonna hold the babies tight?
Are you gonna give me more of your maybes and might's?

Well you can always love me
You could always love me x2

And if it don't feel right
At least you tried

You could always love me
And if it don't feel right
At least you tried
But did you try?
