## Lightbringer

## Covenant

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Bring the light

Breathe without your lungs
It digs deep underneath this skin
Could you tell me how it ends and begins

Could I kiss those scarlet lips of yours And taste the winter Taste the winter When I shed my December skin

Where do we go from here
I turn around and wait for more
Where do we go from here
I'm taking you with me

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Bring the light
Burn the sky
Torch our lives
Break it all into parts

For the final resolution Where we vow our parts To burn forever To live forever

Taste without your tongue Lick your wounds And kill the creeps Could you tell me how it ends and begins

Tonight I like you even more Take my picture When I shed my December skin

Where do we go from here
I turn around and wait for more

Where do we go from here I'm taking you with me

Pull me up Pull me up

Fire in my footsteps
Peace in my mind
Broken rhythms, broken bodies
Broken minds, broken hearts

We are going to burn this house to the ground I want to hold on to this feeling I want to hold my breath just for a little while Just for a little while

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Bring the light
Burn the sky
Torch our lives
Break it all into parts

Where do we go from here
I turn around and wait for more
Where do we go from here
I'm taking you with me

Pull me up Pull me up.... I am taking you with me
