

Prime Movers

Covenant

Their iron fists are beating
Picking up the steam
Hammers in the mineshaft
Pictures how it seems

Numbers in the working
Burning down the house
Clockworks in the right mind
Whispering of Faust

Prime movers
Here and now forever
We are the prime movers
Eternal for a moment
We are the prime movers
Prime movers
Godlike all together
Prime we are prime
We are the prime movers
Move and we move

Prodigies are screaming
Going down the road
Grails of their brightright
Legion we are code

Far between and standing
Picking up the quest
Weapons of mankind
We are never going to rest
