

## Prime Movers

## Covenant

Their iron fists are beating  
Picking up the steam  
Hammers in the mineshaft  
Pictures how it seems

Numbers in the working  
Burning down the house  
Clockworks in the right mind  
Whispering of Faust

Prime movers  
Here and now forever  
We are the prime movers  
Eternal for a moment  
We are the prime movers  
Prime movers  
Godlike all together  
Prime we are prime  
We are the prime movers  
Move and we move

Prodigies are screaming  
Going down the road  
Grails of their brightright  
Legion we are code

Far between and standing  
Picking up the quest  
Weapons of mankind  
We are never going to rest
