

# Buffalo Stampede

Cowboy Troy

GO!

The first thing that you feel is a rumblin'  
The next thing you know everything starts crumblin'  
Stumbling and you're trying to escape  
So you want to get away from your faith  
but you can't but wait!  
OH no ain't no discounts  
you never want it all yall want the full amount  
of the lyrical gumbo not mumbo  
when it's stronger then a coffee jumbo  
the black buffallo from the GTS  
came from my back  
and the T on my chest  
am I up to the test? aw yes  
with my brand new style  
so fresh

some folks trying to say I'm old off  
showed off  
got with my boys and road off  
to provide the dust  
and tumbleweeds  
make way for the buffalo stampede

Come and see  
the Buffalo is here  
safe in bed while my country hits me  
want to go out  
like a horse and a breakness  
Come and see  
the Buffalo is here  
safe in bed while my country hits me  
want to go out  
like a horse and a breakness

The whole world can change  
in the blink of an eye  
try not to cry  
feel the pain and the pride  
and the loneliness  
and the phyness  
all I want is the truth  
can you show me this?  
but you're here to hook beats  
your pace quickens  
and you're clucking around like chickens  
the Buffallo is on a roll  
now you know  
like I said popo  
so tell your momma and them  
save your drama for them  
tell all your kin folks  
your cousins and your friends  
and get on over to the Ponderosa  
and move your body and your boody  
like you know you're supposedta

some folks trying to say I'm old off  
showed off  
got with my boys and road off  
to provide the dust  
and tumbleweeds  
make way for the buffalo stampede

Come and see  
the Buffalo is here  
safe in bed while my country hits me  
want to go out  
like a horse and a breakness

(music break)

one, two, three, four

From Little Big Horn to wounded knee  
The trailer kids you'll never find me  
and like a cheese boy  
you know I'm outlasting  
You know I got a hell of a ton of um asking

Come and see  
the Buffalo is here  
safe in bed while my country hits me  
want to go out  
like a horse and a breakness  
Come and see
