

No, I'm Not Coming Out

Cows

All my friends, they have me surrounded
All the same, I'm not coming out

Though they try they cannot defeat me
Can't defeat me, can't beat me
But I'm impressed

They all know that they're not invited
I won't leave while I'm breathing
It's my house

Mom and Dad when you read about this
Just remember I warned them
And it's my fault
