

## Lose That Girl

Crack the Sky

I can't get to her  
You don't know what I'm going through  
She says I keep her satisfied but I know she's got her eye on you  
I can't get to her  
And it's driving me down  
When I hold her close at night  
She seems to be some other place  
When I look into her eyes man I can almost see your face  
She's on fire, burning for you  
I can see it when she's lookin at me  
I'm gonna lose that girl  
I'm gonna lose that girl  
I can't get to her  
No matter what I try to do  
She keeps telling me there's nothing wrong but I can see  
the way she looks at you  
You're gonna take her  
Away from me  
Now I would ask you not to do it but you see I understand  
I was feeling just like you are  
When I stole her from her man
