

# Get Outta My Head

Cracker

Someone please save us  
Save us from our wicked little selves  
We're bent or courageous  
We're drifting so it's hard for me to tell

I wanna make you mine all of the time  
I wanna be your [?] man  
Get outta my head or into my bed.  
Get outta my head or into my bed.

I had a dream about you last night  
I had a dream about you last night

Yeah we were contagious  
We were both covered up with bees  
I felt so outrageous  
The hip priest man, he ain't got nothing on me

I wanna make you mine all of the time  
I wanna be your [?] man  
Get outta my head or into my bed.  
Get outta my head or into my bed.

I had a dream about you last night  
I had a dream about you last night
