

Get Outta My Head

Cracker

Someone please save us
Save us from our wicked little selves
We're bent or courageous
We're drifting so it's hard for me to tell

I wanna make you mine all of the time
I wanna be your [?] man
Get outta my head or into my bed.
Get outta my head or into my bed.

I had a dream about you last night
I had a dream about you last night

Yeah we were contagious
We were both covered up with bees
I felt so outrageous
The hip priest man, he ain't got nothing on me

I wanna make you mine all of the time
I wanna be your [?] man
Get outta my head or into my bed.
Get outta my head or into my bed.

I had a dream about you last night
I had a dream about you last night
