

# How Can I Live Without You

Cracker

You can still come and bring me coffee in the morning  
You can still come and make me chicken fried steak  
Or you can live your life with whomever you please to  
As long as someone takes good care of me  
You know I don't mind

How can I live without you  
If it means I gotta get a job  
How can I live without you  
If it means I gotta get a job

You can still come and bring me those fancy pastries  
You can still come and crawl into my bed  
You can live your life with whomever you please to  
As long as someone takes good care of me  
You know I don't mind

How can I live without you  
If it means I gotta get a job  
How can I live without you  
If it means I gotta get a job

Yeah!

How can I live without you  
If it means I gotta get a job  
How can I live without you  
If it means I gotta get a job

(How can) How can I live without you  
If it means I gotta get a job  
(How can) How can I live without you  
If it means I gotta get a job
