## I Can't Forget You

```
Gold summer wheat
It sways in the breeze
'Til it fades in the Autumn
To brown
Cool summer grass
It beckons and calls
And I lie here with you
In my heart
I can't forget you
I can't forget you
I can't forget you
At all
Birds take to the sky
They never aligned
They circle around
Forever
Now I tried but I failed
To hide and disguise
This one simple sentiment
I can't forget you
I can't forget you
I can't forget you
No, no
I can't forget you
I can't forget you
I can't forget you
At all
No, no
```
