

I'm A Little Rocket Ship

Cracker

I'm a little rocket ship
I'll take you on a little trip
We'll leave this planet far behind

I'm a little tired of it
And you're a little weary
I can tell, yeah yeah

Well, I'm a little rocket ship
And you are Queen Andromeda
Of all the stars, those with names
And those in clusters
You are on account of me
Infinite, so can't you see that
I'm a little rocket ship

I'm a little rocket ship
I'll take you on a little trip
And leave this planet far behind

Do you suppose that they've been here?
I don't know, but I've been there
Do you want to come along?

I'm a little rocket ship and
You are crowned the Femme Magnificent
Of the stars, those with names
And those in dingy drag bars
They plead with you not to go
To Pleiades or Scorpio and
I'm a little rocket ship
