

# Let's Go For A Ride

Cracker

Oh, yeah I feel alright tonight  
Oh, man the stars are bright tonight  
Like we could reach right out  
And help yourself to them

Cause what we want and what we need  
Will one day bring us to our knees  
Well, I am over it  
You know that I've accepted it

Let's go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride

Let's go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride

So, drive real fast through the underpass  
And if we die or if we crash  
Well I'd be flattered to  
Be buried right next to you

Cause what's yours is yours  
What's mine is mine  
In the summertime  
Under the blackened sky  
The world belongs to us  
Baby lets use it up.

Let's go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride

Let's go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride

Let's go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride

Let's go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride

Let's go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride

Go for a ride  
Let's go for a ride  
Let's go for a ride  
Go for a ride
