

Someday

Cracker

Someday well I'll get it right
Yeah one day I'll get it right
Someday well I'll get it right
Yeah one day I'll get it right

And I had a dream last night
That I was feeling barely human
So save me a place in your parking lot
And save me a place beside you
When you lie down to sleep at night
Someday I'll get it right

Someday well I'll get it right
Yeah one day I'll get it right
Someday well I'll get it right
Yeah one day I'll get it right

And if you see the dark clouds
Gathering out on the horizon
Don't be alarmed
They're just there for me
Just save me a place beside you
When you lie down to sleep at night
Someday I'll get it right

Someday well I'll get it right
Yeah one day I'll get it right
Someday well I'll get it right
Yeah one day I'll get it right
Yeah one day I'll get it right
