

# Couldn't Be Mine

Craig David

She said that she's a little late  
She said that something's on the way  
She must have hit the wrong number, with her thumb and called me  
This whole thing must be a mistake  
Maybe she thinks she's calling Drake  
Maybe she met us in the same club  
But she's insane cos it's not me  
I know we fuck sometimes  
Messed around once or twice  
But ain't no way that it could be mine

Couldn't be mine, oh no  
'Cos I don't remember playing around with you at the time, oh no  
'Cos you were busy messin' with some other guys  
Couldn't be mine, oh no  
'Cos you came around only one time  
And you said we should get a little drunk, bit of fun  
But now it's coming back to me  
You got me thinking, could it be mine?

Couldn't be mine, oh no  
'Cos I don't remember playing around with you at the time, oh no  
'Cos you were busy messin' with some other guys

Couldn't be mine, oh no  
'Cos you came around only one time  
And you said we should get a little drunk, bit of fun  
But now it's coming back to me  
You got me thinking, could it be mine?

What if it turns out I was wrong? (No baby, no baby)  
And I've been fooling myself all along (No baby no no)  
This couldn't be happening to me, No no no baby  
But we can't talk about this on the phone

Couldn't be mine, oh no  
'Cos I don't remember playing around with you at the time, oh no  
'Cos you were busy messin' with some other guy's  
Couldn't be mine, oh no  
'Cos you came around only one time  
And you said we should get a little drunk, bit of fun  
But now it's coming back to me  
You got me thinking, could it be mine?
