

What You Do To Me

Craig Morgan

I get all choked up
When you tell me you love me
Then whisper my name
I get lost in your touch
And I find myself getting carried away
To a far away place
Where I lose track of time
And cherish each minute endlessly
Yea thats what I do when do what you do to me

Oh my heart goes crazy
Over you baby
When you do what you do
No if's and's or maybe's
I'll always be in love with you

I get sentimental
And get tears in my eyes
It happens so easily
Yea thats what I do when do what you do to me

I still get a thrill
Just like the first time
But that ain't hard to believe
Yea thats what I do when you do what you do to me

Yea thats what I do when you do what you do to me
