

# Are You Gone

Cranes

Are you gone  
Did you just fly away  
The sun is gone away  
And I can't seem to find my way

Are you gone  
Just like in dreams you said  
And dreams should never die  
And I just want to hide away

Are you gone  
Did you just fly away  
The sun is gone away  
And I can't seem to find my way

Are you gone  
Just like in dreams you said  
And dreams should never die  
And I just want to hide away
