Every Town

Cranes

Said I'm a runaway hitching the wrong way
I guess I don't wanna go far
And when I'm a ridin' don't notice who's drivin'
My head is alone in the stars

Within my dreams I never see any frowns
Within my dreams you are in every town

Stumbling backwards and trippin' up forwards
I don't seem to find any truths
I'm filled up with sorrow from here til tomorrow
But when my eyes close I'm with you

Within my dreams I never see any frowns
Within my dreams you are in every town
You are in every town
